HTML5

CSS3

JavaScript

Responsive Web Design

Git

- Cricbuzz is an Indian cricket news website featuring news, articles and live coverage of cricket matches.
- Single handedly implemented complete user flow including login, sign up, add to cart, payment, and checkout.
- Gained an in-depth understanding of feature requirements and participated in the design sessions

Experience

Advanced Voice Research Labs | SDE April 2023-present

- Managed clients and developed code with minimal errors, ensuring high-quality deliverables.
- Collaborated with 15+ engineers to develop web-based automation solutions for clients using JS/JS Frameworks.
- Worked on the development and implementation of frontend applications using React.js.
- Familiarized myself with RESTful API integration and worked closely with backend developers to integrate frontend components with server-side logic.
